

Declaration of Health

Recognizing that each employee is an irreplaceable and most important management resource, Kozakura Shokai declares the promotion of health management as follows.

1. Health of consciousness

Kozakura Shokai considers that the health of employees and their families is an important management issue, and that the vitality of employees is the vitality of the company and strives to raise employee health awareness.

2. Action for health management

Kozakura Shokai actively supports and promotes efforts to maintain and improve the health of employees and their families, aiming to realize healthy management.

3. Responsibility for society and the future

Kozakura Shokai aims to contribute to society and realize sustainable growth through sound corporate management by healthy employees.

「Health management promotion system」

Under the promotion of health management of the Chori Group, Kozakura Shokai has established the “Health Promotion Committee” chaired by the officer in charge of the management department in order to formulate a health declaration and work to maintain and improve the health of employees. We are working on various activities to promote health management.

「Health issues and measures」

Kozakura Shokai is to continuously work on the following five issues.

1. Improving the rate of health checkups for employees.
2. Efforts for subjects at risk of aggravation of lifestyle-related diseases.
3. Early detection and treatment of cancer
4. Promotion of proper drinking.
5. Promotion of smoking cessation and smoke reduction.
